

ISE 211 IT Systems and Security Homework-2

Explanations About the Homework

You'll analyze the social computing systems and techniques in this homework.

The homework will consist of four parts: introduction, main body, conclusion, and references sections.

The **introduction section** of the report should explain why the study was conducted.

a. The **main body section** should include following topics;

- Definition of social computing
- Fundamentals of social computing
- Social computing in social life
- Social computing in business (fields)
- Social computing's impact on society
- Social computing technology: Web 2.0

In the **conclusion section**, the important conclusions reached as a result of the study should be explained.

The last part is for the **references**. Here you will **list all references cited** for the study.

The report of homework will be written in academic language. The sources used in the report will be cited in accordance with APA 6.0 standards.

The deadline for submission of the reports to the MS Teams platform is December 29, 2024.

Reports should be prepared using **Word (doc, docx)** or **PDF** formats.

Homeworks submitted after the deadline will not be evaluated.
